PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This installation is located approximately 9 kilometers (km) southeast of Volgograd on the east side of the Volga River (Figure 1).

Covering 130 acres, the partially fenced facility (Figures 2 and 3) consists of 38 buildings in a 110-acre barracks area, a motor park, a 10-acre driver-training course, and a 10-acre fenced ammunition storage area with 5 storage buildings. A former anti-aircraft site is located between the ammunition storage area

and the driver-training course.

[] TALENT and [] KEYHOLE missions from [] reveal the installation constantly active with no major changes noted. In [] there were 60 to 65 vehicles in the motor park, but none were discernible on other missions. However, the [] mission reveals the most trackage and scarring in the area.
